Mac mini

Introducing iPod shuffle

Presenting Mac mini. With a powerful G4 processor, great graphics, 256MB of memory, and a Combo drive, Mac mini packs a lot in its 6.5-inch-square enclosure. Mac mini also comes with Mac OS X and an extensive collection of software for everything from Internet and email to working with photos, music, and movies. About the only thing it won't do is take up space. Check out Mac mini now.

Flexibility to meet your needs.

You can connect Mac mini to your existing monitor, keyboard, and mouse¹ or add an Apple display and wireless keyboard and mouse when you order.² Connecting and using peripherals like printers or digital cameras is as simple as plug and play.

Turning life's moments into masterpieces has never been easier. Mac mini is the most affordable way to start doing more with your photos, movies, and music.

Mac mini starts at \$499 retail.

Your EPP discount price starts at \$469.

Make your purchase from your EPP online store or call toll free 1-800-MY-APPLE and mention that you are an eligible participant of the EPP program to receive employee discount and get free ground shipping on all orders over \$50.
